

At PwC Greece, we believe change is the new constant. An enterprise's ability to innovate, adopt new technology and disrupt the status quo is a core capability needed to thrive. We support and guide clients to disrupt their existing business models. Innovative mindsets and human ingenuity are always welcome. This is why we are looking for you.

If you are a tech-oriented problem solver with motivation to learn, someone willing to collaborate with different teams across PwC Greece, a good communicator with high emotional intelligence and someone willing to take ownership beyond the obvious, then you are the one!

Due to the continued growth of our practice and consistently high demand for technology consulting services, we are now recruiting Technology Advisory professionals (experienced Associate to Senior Manager) in our Technology Advisory team in Athens.

Examples of tasks you will work on as part of the team

- Contribute to the creation of IT / Cloud Strategies and Transformation Programmes. Evaluate alternative options and trade-offs to drive the execution of the IT / Cloud strategy taking advantage of opportunities to optimise technology, improve performance and enable digital transformation.
- Assess and design Technology Operating Model(s), covering IT Governance, IT Functional and Technology aspects.
- Develop Solution Architectures and Application Landscape(s) / Technical Plans based on best practices and standards.
- Define and manage complex projects or programmes of the Technology Consulting Team by utilising appropriate project management methods and tools using either predictive (plan-driven) or adaptive (iterative/agile) approaches.
- Contribute to marketing and business development activities of the Technology Consulting Team including designing and development of product playbooks, selling pitching decks, etc.
- Develop high impact Technology Consulting proposals, developing detailed project scope, deliverables and work plans.

For Managers and above:

- Interact and engage with C-Suite stakeholders focusing on building and maintaining strong clients' relationships.
- Lead and coordinate complex programmes or projects of the Technology Consulting Team by utilising appropriate project management methods and tools using either predictive (plan-driven) or adaptive (iterative/agile) approaches.
- Develop and lead high impact Technology Consulting project proposals, developing detailed project scope, deliverables and work plans.
- Coaching and helping other senior members of the team to produce high quality of work for the clients.

What we are looking for

- University degree in Computer Science or other relevant fields, advanced degrees (MBA, and/or other Master's Degree) viewed favourably.
- Relevant Experience working with customers on IT / Digital transformation projects.
- Experience with cloud computing and/or cloud adoption/transformation.
- Expertise in building something from scratch and seeing it through; envisioning the big picture, setting goals and developing programs from concept to execution.
- Proven track record of executing high-impact projects in cross industry practices (e.g. Financial Services, Consumer Industrial Products and Services, Public Sector & Health Care, Energy & Utilities) from consulting point of view.
- Clear and concise spoken and written communication style tailored to each specific audience. Ability to communicate technical concepts to technical and non-technical audiences.

What's in it for you

At PwC is all about people, encouraging high performance and quality work.

Being part of our team includes:

- Hybrid working model
- Competitive total compensation package
- Health and life insurance
- Dress for the day - wear what makes you feel comfortable and dress for your day
- Company mobile phone and laptop
- Extra days of annual leave
- Company Car (Manager level and above)
- Performance bonus eligibility (Manager level and above)
- Wellness Initiatives like gym sessions & nutritionist
- ♂ Actions Teams eligible to participate (e.g. Running, Trekking)
- Career development opportunities & continuous training whilst learning from a wide range of top professionals and through tailor made training programmes
- Global mobility opportunities

If you're looking for a team that values your work and solves meaningful problems, apply now!

We believe the best work is human-led and tech-powered. If you're keen to apply and need reasonable adjustments or would like to note which pronouns you use at any point in the application or interview process, please let us know.
